Welcome to Edwardsville Care Center

Our commitment to our residents is unlimited and we're dedicated to making a positive, caring difference every day in the lives of our residents and their families. We practice this simple philosophy whether your loved one is with us for short term rehab, as a long term resident or for a short respite stay. We offer resident centered care as well as Alzheimer's / Dementia care. Licensed as a Medicare / Medicaid approved community, we also honor most insurance providers.

We are a privately-owned skilled nursing community offering 24-hour professional medical care and support services for our residents. At Edwardsville Care Center you will experience the comforts of home in a family atmosphere. We offer clean, cozy rooms you can decorate just like you would at home. Our award-winning team of professionals are known in the community for the excellent care they provide to our residents.

**"If you find it in your heart to
care for someone else you
will have succeeded"**

-Maya Angelou

Edwardsville
Care Center

Long Term Care

We offer a continuum of nursing care so that our long-term residents' changing needs are met on a daily basis. Edwardsville Care Center's staff is committed to meeting the physical, emotional, social and spiritual needs of our residents.

Daily activities help ensure active minds and bodies; social services provide ongoing support to our residents and their families. We support autonomy and allow our residents to be as independent as their health allows. Day rooms encourage residents to interact with one another.

Resident meals are served "restaurant style" in our dining room. They are seated together at small tables and choose from several entree options. Special diets are provided to accommodate resident needs.

Residents are able to bring their own furniture and decorate their rooms to make their environment home-like.

Family, friends and visitors are welcome to visit 24 hours a day.

Schedule your tour today.

We Accept Private Insurances, Medicare, and Medicaid.

Town and Country Rehab

We believe in helping our residents achieve and maintain their best possible mobility. Our restorative therapy programs are free and are intended to help our residents achieve success in making the transition from daily intensive therapy to requiring less assistance.

Town and Country Rehab offers three distinct rehabilitation services including speech, occupational and physical therapy with the goal to rehab back to the prior home environment.

We take pride in our success stories which include individuals who have been able to return to a more independent setting, including returning to home. Our therapists encourage participation in personalized care plans to support and encourage individuals to reach their full potential.

Our aggressive discharge planning ensures an individual has all the adaptive equipment, home modifications, and training to be successful once they return home.
